

Motor Parameters

- Type: Permanent Magnet - Brushed
- Operating Voltage: 24 VDC
- Output Power: 250 Watts Continuous
- Rated Current: 16 Amps (250 Watts Output Power)
- No-load Current: 3 Amps Max.
- Assembled Weight: 5.8 Kilograms (including gearhead)
- Motor CW Rotation: **RED to Positive - BLACK to Negative**
- Motor CCW Rotation: **RED to Negative - BLACK to Positive**
- Opposite rotation
- Gearheads: 6GU12.5 to 18K & 6GU90 to 200K (these gearheads output in the opposite direction from the motor shaft)
